

COMPANY PROFILE 2021

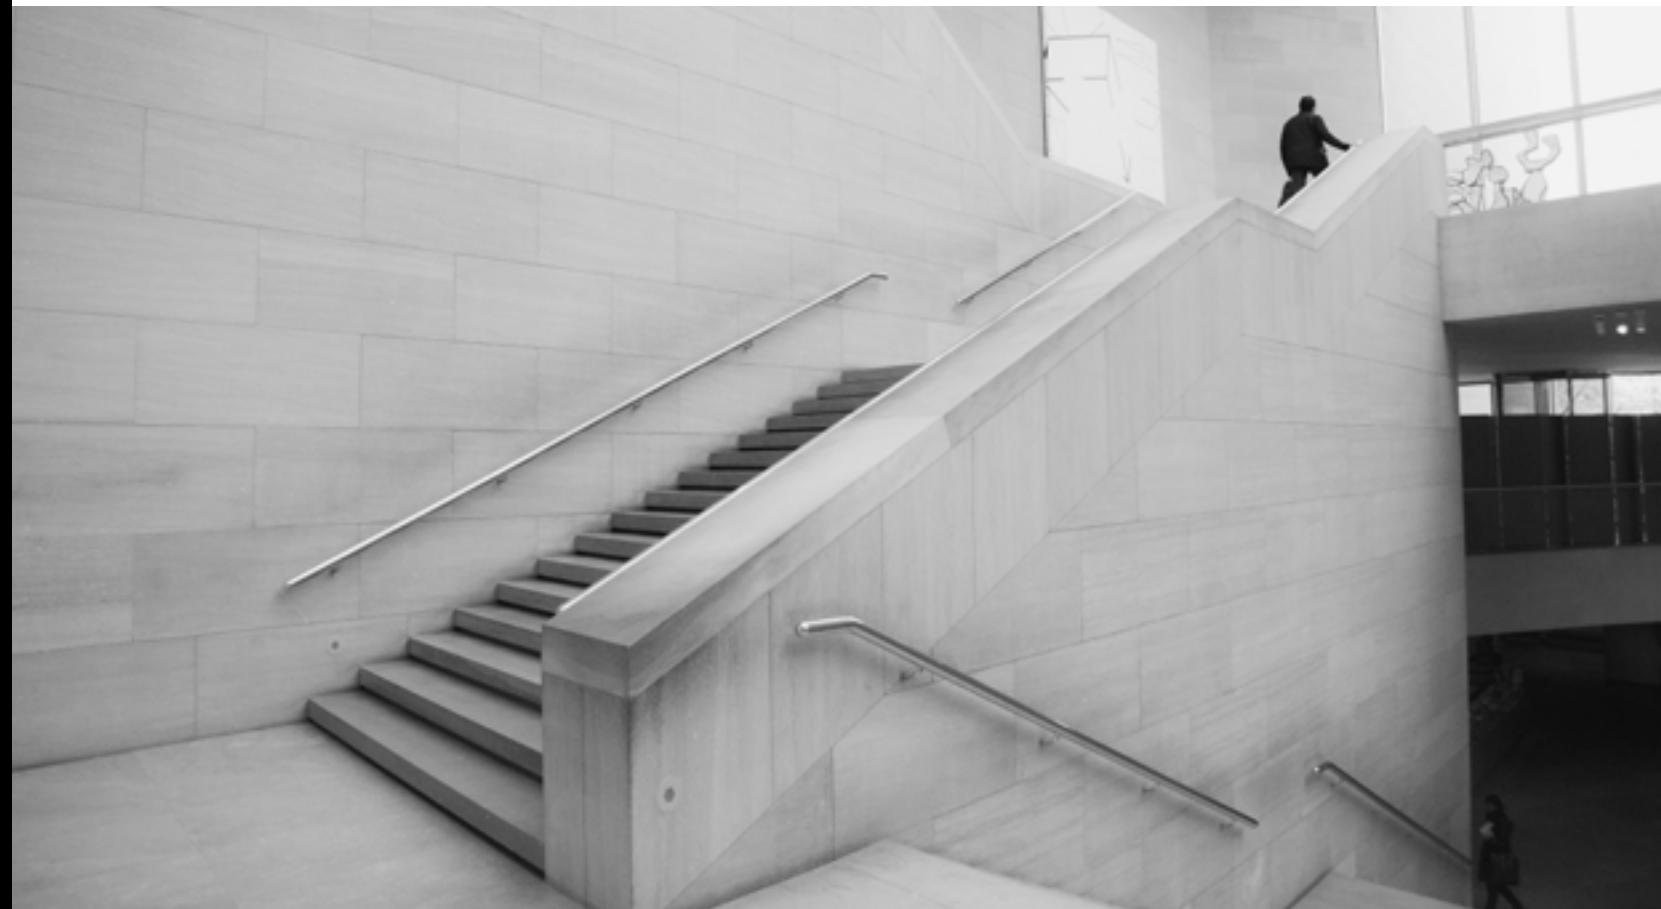

OUR MISSION & VISION.

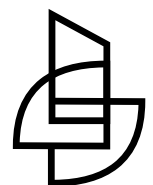

MISSION

Developing projects that make customers main desires possible while providing a distinctive satisfaction level.

VISION

To lead a movement of revolutionary brands by offering the utmost modern experiences to a target from a good socio-economic class and offering them a distinctive product suits addressing their special needs.

ABOUT ADC

OUR HISTORY

Established in 2014 as a family-owned real estate company, ADC Developments started their journey by building multi-use projects in New Cairo and Sharm el Sheikh where they've built exclusive communities for residents to enjoy a better quality of life.

Following this commitment to improving lives, ADC Developments have continued to expand throughout the years and are capitalizing on the shift in the Egyptian real estate market, where people are moving further away from the overcrowded downtown area and going further east and/or west, and are using this in order to grow exponentially; We're now entering The New Administrative Capital with a state-of-the-art business complex in the Downtown Area. Taking our mindset of maintaining the best standard of quality and remaining innovative in the process, we're offering integrated commercial, administrative, and residential units featuring the first branded apartments in the area.

As the market changes, ADC Developments plans to remain agile and continue offering people the lifestyle and added-values they seek.

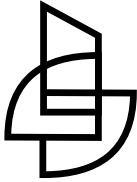

OUR STRATEGY

At ADC we plan to build a new concept of having branded apartments for the first time in new capital , and also combining it with office spaces and commercial area in order to satisfy the need of all our clients.

VERA[®]

CURRENT PROJECTS

ABOUT VERA
